

Phytosanitary Certificate (PC) is required.

Additional Declaration is required. See PExD for current AD.

**Additional Information**

- **Please review S/C 52 Sweet Cherries to China prior to shipment certification.**
- The USDA stamp (seal) will be marked on each carton.
- Name and address of facility or associate company marked on each carton shall be the same as registered.
- Sample of 2% of the cartons and 100% of the fruit in the sample cartons. The quality/condition/size sample may be included in the 2% sample.
- Inspect 1% of the cartons for quality/condition/size
- Inspect 50 cherries for quality/condition/size and insect
- Inspect remainder of cherries in the sample container for insect
- The additional samples needed to meet the 2% phytosanitary requirements will be satisfied by observing the graded product on the packing line at or near the point of filling of cartons.

Observation of fruits will be on an equivalent to the number of cartons required to satisfy the phytosanitary requirements.

Example:

2,000 -- 20 lb. Cartons @ 2% = 40 samples

1% sampling for quality/condition/size = 20 samples

1% observation of fruit at fill station = 20 samples

- If going by sea, the sea container number must be on the PPQ.
