Calibre Press Street Survival Seminar

Street Survival originated in 1980 and was designed to train officers how to survive a gunfight. As Law Enforcement has evolved, so too has the *Street Survival Seminar.* **Our current focus** is educating today's officer in the statistical realities of surviving the "**24/7**" aspect of a career in Law Enforcement by addressing both on-and-off-duty challenges.

The Seminar is presented over two days in a highly dynamic format by nationally recognized, veteran law enforcement officers and trainers. The course analyzes the most current videos of live law enforcement related incidents as well as classic cases in order to sharpen the skills to be successful during street confrontations. Instructors examine case law, scientific data regarding stress management and human performance science as it pertains to the use of force.
