

## COLOMBIA - Apples

Current as of: 05/21/2013

Phytosanitary Certificate (PC) and Import Permit (IP) are required.

### Additional Information

- **Do not certify unless an IP is presented.**
- Additional Declaration is required. See IP for current AD.
- **If an import permit (IP) is presented, follow the apple and pear workplan found in PExD.**
- To ensure that the fruit is free of codling moth, APHIS inspectors will intensify the inspection for this pest. A minimum of 2 percent of the boxes in each lot will be inspected and at least 1 percent of that fruit will be cut and inspected for insect damage and infestation.
