6. Place of Use (continued)

B. Proposed:

IDENTIFY THE WATER BODY TO BE BENEFITED OR OTHER PLACE TO BE BENEFITED
Primary Reach: From the point of diversion, as listed in Section 4, to the historic point of return flows.

7. Remarks and Other Relevant Information:

The purpose of this application is to donate the conserved water from a piping project into the Trust Water Rights Program to benefit Peshastin Creek for a period of 25 years. Peshastin Irrigation District (PID) seeks to change the purpose of use of 360af/year and 1.2 cfs to instream flow, calculated from the water conserved as a result of the piping project shown in the appended documents. The trust water reach will extend from the point of diversion, as listed in Section 4, to the historic point of return flows. This will benefit salmon and bull trout, and rearing for spring Chinook, steelhead and bull trout, particularly by addressing flow and reduced temperature issues in the lower 2.4 miles of Peshastin Creek. This water will provide significant public benefit for fish restoration in the system, and as such would qualify for priority processing under Chapter 173-152 WAC. The trust water right will be met via delivery and measurement terms of the attached grant agreement between PID, Chelan County, and the Office of the Columbia River. Supplemental information regarding the project and historic beneficial use are included in this application packet.

Certain applications may incur a Real Estate Excise Tax liability for the seller of the water rights. The Department of Revenue has requested notification of potential taxable water right related actions and therefore may be provided with a copy of this request.

Please contact the State Department of Revenue for further information. The phone number is (360) 570-3265. The address is: Department of Revenue, Real Estate Excise Tax, PO Box 47477, Olympia, WA 98504-7477.
