December 14, 1983

Mr. J. E. Curl, Sr.
Minerals Geologist, NW District
c/o Shell Oil Company
P.O. Box 2906
Houston, Texas 77252

Dear Mr. Curl:

As per our telephone conversation December 14, 1983, the enclosed map indicates approximate locations of your proposed roads and our logging road proposals. I encourage you to build any roads for drilling on the logging road locations if they meet your needs. As I understood our conversation, you will be filing another NOI with us if you decide to proceed with drilling on your unpatented claims.

I also mentioned that your Notification of Intent was received about the dame day you proposed to start drilling. This was a little short of the 15 day notice required by us. Fortunately nothing has occurred on the unpatented claims. There is a chance we can work together on mutually beneficial road locations.

Jim, please keep us informed. Let us know if we can be of any assistance.

Sincerely yours,

Jerry L. Kidd

Jerry L. Kidd
Border Area Manager

Columbia View #30	519209
Columbia View #34	519213

ATTACHED SHEET #2

Description of Proposed Activities:

An exploration drilling program of 22 vertical drill holes is planned for the claims listed below. Also, access roads will be constructed where necessary. Construction of access roads will use a Caterpillar D7 or equivalent, with a blade width of 11 feet. Total access road length, including patented claims and BLM acreage, will be 12,900 ft., with an 11 ft. road width, this would be about 141,900 sq. ft., or 3.26 acres. Drilling will be done with a percussion - rotary bit with a truck mounted drill rig. All drill holes will be vertical.

Reclamation will be in accordance with Subpart 3809.1-3d of Title 43 Code of Federal Regulations. Reasonable measures will be taken to prevent unnecessary or undue degradation of lands both federal and private during operations.

Claims to be Drilled:
