

Inspection note:

Do not certify unless an IP is presented

Must be free of *Cydia pomonella* (codling moth)

- Non-Phytopsanitary requirements (for exporters or their agents): Fruit must be cold treated for *Cydia pomonella* (codling moth) and documentation provided to Venezuela showing the treatment.

Current Import Permits for Venezuela identifies the appropriate cold treatment as the fruit being held at 0.0 degrees Celsius (32 degrees Fahrenheit) for 12 days OR held at 0.5 degrees Celsius (33 degrees Fahrenheit) for 16 days. Venezuela will accept appropriate documentation provided by the exporter or their agent showing that the required treatment was conducted either at origin or in transit.

Import permit valid for only 6 months.
