SUBJECT: Letter of Recommendation

The South Correctional Entity was recently fortunate enough to have Sergeant Abdul Mohamed, the lead instructor of Black Tiger Tactical Systems, provide training in Correctional Emergency Response Team (C.E.R.T) operations. Sergeant Mohamed and his assistant instructor Wright were very professional, well prepared as subject matter experts and extremely patient.

Sergeant Mohamed motivated, inspired and had twenty-four (24) operators thinking as one cohesive unit. Both instructors kept the administration well informed of the progress of the teams as well as the progress of each individual operator. They truly displayed a passion and caring for each operator ensuring that each person operated in a safe manner at all times, as is evident in that during two forty hour sessions of high intensity training we had no injuries, a task that is a testament in and of itself.

The class was physically and mentally challenging, increased by the fact that a majority of the operators had never operated in an emergency response team environment and at the conclusion of the forty hour class the operators displayed the confidence to carry out whatever comes their way as well as realized that the training never stops.

I would highly recommend this class to any facility or agency looking to create an emergency response team or to build upon the skills of a unit you may already have. Black Tiger Tactical is a real world training organization implementing real world tactics and scenarios.

My name is Thomas Clark. I am a Police Officer with Kent Police Department. I am also a Master Defensive Tactics Instructor. I am providing training for my new Defensive Tactics Field Instructors (DTFI) and I am asking for help in this matter from Master Defensive Tactics Officer Abdul Mohamed.

I have had the pleasure of training with Officer Mohamed and found him to be an outstanding instructor, talented leader, and a dynamic speaker who motivates the class while consistently challenging the officers to work harder and longer. He is a highly skilled trainer, very respected in the law enforcement community, and he is more concerned with saving lives and giving the officers tools they can readily use.

Officer Mohamed is the person that myself and Kent Police Department trust with our officers. Upon your approval, we would like Officer Mohamed to teach 10 of my officers at the MRJC Roll Call Room on Friday, August 27, 2010 (0800-1600).

Also, I hope in the future, I may provide any assistance as I would like to continue the great relationship between the King County Jail and Kent Police Department in all areas.

Thank you for your consideration.

Recently, Milton Police Department was lucky enough to have Abdul Mohamed, the lead instructor for Black Tiger Tactical Systems, provide training in Weapon Retention & Disarming. To say the class was outstanding would be a major understatement. The instruction was professional, readily applicable, realistic and based on proven tactical principles. It was a very fast paced class yet the expectations were clearly stated and achievable.

Mr. Mohamed is a dynamic speaker who motivates the class while consistently challenging the officers to work harder and longer. He is a talented trainer that is more concerned with giving the officers tools they can readily use then promoting a set group of techniques. This is one of the few classes where officers never asked, "Can We Go Home Yet?' instead the comments all centered on how relevant and practical the training was.

If you haven't had Black Tiger Tactical Systems provide training for your department yet, you are missing one of the new up and comers in the combatives arena. We will definitely have Black Tiger back for more intensive training in the future.
