MEMO to File

DATE: July 7, 2008

TO: Ben Bonkowski

FROM: Gloria J. Bernhardt

RE: Registration of Water Right Claim Nos. 200150-200633 filed during the Claims Registration period ending June 30, 1974

To inform the record, the above-mentioned range of water right claims, including the water right claim in this file, went for many years without being registered due to a variety of reasons. Some of the main reasons for not registering them at the time were: nonpayment of the claims registration fee, two sources claimed on one form, and not enough information on the location of the property, etc.

Years ago, attempts to contact many of these claimants went unsuccessful as people had moved or didn't respond to staff inquiries.

Prior to the most recent 1997-1998 Claims Registration Opening, a decision was made to number and register these previously unregistered claims so they could be tracked in Ecology's Water Rights Tracking System.

The original files are being sent this month to the Water Resources regional offices to scan them and link them to the data for the claim that is entered into the Water Rights Tracking System.
