Re: Ground Water Permit No. G4-25953(A)P

Dear Mr. Engbretson:

In response to your request, you are hereby granted an extension to complete construction for the reason below:

- Two more years are needed to complete a change application and the construction for the remaining place of use of approximately 100 acres.

The new deadline to submit your *Construction Notice* is **October 1, 2012.**

In 2007, an extension request was submitted to Ecology indicating that the system on the current place of use was complete and a change application was forthcoming to change a portion of the place of use. Ecology agrees to approve this extension request for another two years to allow time to submit a change application to the Benton County Conservancy Board and to complete construction on the new place of use.

Please be reminded per the provisions of the Permit that a video scan is due for the wells and a land-management spreadsheet must be submitted to Ecology by January 31st annually.
