with the
Richland, WA, Police Department

presents an opportunity to attend

Attention:
Training Managers
Please Post!

The nationally presented course every police administrator wants...
...and every police supervisor needs!

Supervisor Force Liability Prevention

This course counters the latest "post-Ferguson" litigation tactics by plaintiffs, providing practical guidelines and checklists for the police force response and its documentation by your supervising officers.

Why You & Your Supervisors, FTO's, and Police Managers Need to Attend This Course:

- ▶ The requirements for using and reporting force have changed. Have you changed to meet the threat?
- ▶ The threat by Plaintiff's attorneys is now coordinated, specialized, and growing.
- ▶ The threat of **civil and criminal liability** to officers and on-scene supervisors has never been greater.
- ▶ The courts are requiring increasingly more sophisticated testimony from on-scene supervisors.
- ▶ Identifying civil liability exposure is a key to documenting and proving your--and your officers'--proper conduct.
- ▶ **What is a supervisor's actual liability exposure?** Is it true that he or she has little control over his or her fate, and is at the mercy of their officers' conduct? This course provides real-world answers.

The public, the media, and the courts expect ever higher professional conduct and expertise from police supervisors and managers than ever before. *We help you achieve it!*

25 October 2016

Your Instructor: GEORGE T. WILLIAMS

Director of Training of Cutting Edge Training, LLC. He is a nationally known Police Training Specialist and author. He extensively defends officers in civil and criminal litigation as an Expert Witness on force and deadly force response, tactics, policy, and training. He has presented this constantly updated and vital training to thousands of officers, supervisors, and command officers nationwide. Don't miss this opportunity to be trained by a master trainer, who will keep your interest, stimulate your enthusiasm for the job, and provide you with career saving information!

Designed by the civil attorneys who defend police...for police.

We asked one simple question: "What do you want your defendant supervisors to know *before they get on the stand?*"

This is the course they want you and your supervisors to have!
