Re: Water Right No. G2-26232 for the Alderbrook System

Dear Ms. Gray:

In response to your request, you are hereby granted an extension to put the water to full beneficial use for the reasons below:

- Due diligence is shown in development of this project. The water system is currently serving 484 connections.
- Additional time is needed to achieve full beneficial use of water due to the magnitude of this project for municipal supply purposes and local development patterns.

The new deadline to submit your *Proof of Appropriation of Water* is **March 1, 2020.**

Enclosed is Superseding Permit G2-26232. The superseding permit identifies this right as being for municipal supply purposes with a place of use that may be modified through the water system plan approval process.
