RECEIVED
JAN 4 1985
DEPARTMENT OF ECOLOGY
CENTRAL REGION OFFICE

Dear Elaine:

Enclosed are the applications for the water permit that I spoke to you about on the phone some two weeks ago. As I indicated to you at the time, we have no intention to permanently use any of the Ingalls Creek water; rather, we will only to divert up to 10 CFS into a natural channel and form a small series of lakes prior to discharging the water back into Ingalls Creek.

Enclosed are

1) surface water permit application
2) reservoir application
3) environmental checklist.

A check for $20.00 (twenty dollars) is also attached. Please let me know if further information is needed to process this application. We are looking forward to completing this exciting project.

Very truly yours,

Alan E. Walter
