B. Proposed:

IDENTIFY THE WATER BODY TO BE BENEFITED OR OTHER PLACE TO BE BENEFITED
Mill Creek and the Mainstem Walla Walla River

7. Remarks and Other Relevant Information:

These landowners share water right certificate 54 from Mill Creek they are not an irrigation district but rather more of an informal ditch partnership. This trust water application is being filed in conjunction with a request to administratively divide the water right. This right has been used for the irrigation of --- acres. Various crops have been grown on the property including asparagus, wheat, onions and since 1985 much of the property has been in turf. A meter and fish screen were installed in 2006. However, problems with the fish screen clogging with vegetation and algae have limited the amount of water that can be withdrawn through the existing diversion. Please see attached materials for additional information on the water use.

Certain applications may incur a Real Estate Excise Tax liability for the seller of the water rights. The Department of Revenue has requested notification of potential taxable water right related actions and therefore may be provided with a copy of this request.

Please contact the State Department of Revenue for further information. The phone number is (360) 570-3265. The address is: Department of Revenue, Real Estate Excise Tax, PO Box 47477, Olympia, WA 98504-7477.
