DESCRIPTION OF PROPOSED WORKS

A well with pump to cooling system

DEVELOPMENT SCHEDULE

BEGIN PROJECT BY THIS DATE:	COMPLETE PROJECT BY THIS DATE:	WATER PUT TO FULL USE BY THIS DATE:
Begun	April 1, 1981	April 1, 1982

PROVISIONS

The applicant is required to return the system discharge water to the aquifer from which it was removed by injection into a second well constructed so as to insure the return of the discharge water into the aquifer from which it was withdrawn.

Installation and maintenance of an access port as described in Ground Water Bulletin No. 1 is required. An air line and gage may be installed in addition to the access port.

All water wells constructed within the state shall meet the minimum standards for construction and maintenance as provided under RCW 18.104 (Washington Water Well Construction Act of 1971) and Chapter 173-160 WAC (Minimum Standards for Construction and Maintenance of Water Wells).

This permit shall be subject to cancellation should the permittee fail to comply with the above development schedule and/or fail to give notice to the Department of Ecology on forms provided by that Department documenting such compliance.

Given under my hand and the seal of this office at Union Gap, *Washington, this* 6th *day of* June, *19* 80
