

Washington State Fraternal Order of Police
&
Kennewick Police Department
TRAINING ANNOUNCEMENT

Blood Stain Pattern Analysis Workshop

DATE/TIME **October 17 – 21, 2011 0800-1700**

LOCATION: **Kennewick Police Department
211 W. 6th Ave.
Kennewick, Washington 99336**

COST: **\$199 per person FOP Member
\$249 per person Non Member
Typically \$399 per person**

DESCRIPTION:

This basic but comprehensive 40 – hour course of instruction will provide a fundamental knowledge in the field of bloodstain pattern analysis. It will enable participants to properly identify, document, and examine bloodstain evidence at crime scenes. Bloodstain patterns can yield valuable information concerning the events before, during, and after bloodshed.

The Basic Bloodstain Pattern Course is designed for criminal investigators, forensic specialists, criminal attorneys, or others involved in criminal investigations and crime scene reconstruction.

Well over three-quarters of this class is “hands-on” learning; participants will be using *safe* whole animal blood to create and re-create specific bloodstain patterns they would see in real crime scenes. They will also test the theories of the physics involved in fluid dynamics so they have a solid understanding of how blood will react when energy is applied to it, similar to a victim being struck, or shot. A series of mock crime scenes will be used at the end of the week to test the participant’s newly acquired skills.

During this 40 – hour course participants will learn to:

- Identify bloodstain pattern evidence at crime scenes.
- Properly document bloodstain pattern evidence.
- Properly preserve bloodstain pattern evidence.
- Reconstruct bloodstain patterns from crime scenes.
- Interpret bloodstain pattern evidence.

This course has been approved for credit by WSCJTC, Oregon DPSST, ID POST, and CO POST.

STUDENTS SHOULD BRING:

Scientific Calculator

Note pad

Red and Black pens or pencils.

Clothing that may be soiled during labs, or a jump suit.

A Tyvek suit or overalls (if available) for labs.

Cameras are strongly encouraged and very helpful if you wish to document experiments.

INSTRUCTOR WILL PROVIDE:

Laboratory and Reference Manual.

All lab supplies and materials.

Certificate of Completion, describing course dates and hours completed, by the instructor and/or sponsoring agency.

ABOUT THE INSTRUCTOR:

Daniel V. Christman is a police officer with the Bothell, Washington Police Department, near Seattle. Prior to becoming an officer, he spent fifteen years as a Medicolegal Death Investigator, and attended over 3500 death scenes. Since then, Dan has provided independent expert testimony in several hundred cases outside his jurisdiction. He earned a Bachelor of Arts Degree in Social Science, from Boise State University, and his Masters of Science Degree in Criminology from Boston University. From 1996 to 1998, Dan served as the President of the International Association of Bloodstain Pattern Analysts (IABPA). He also held office as IABPA Vice President, Co-chaired the IABPA Education Committee, and organized the 1997 Annual Training Conference for the IABPA and the Association of Crime Scene Reconstruction (ACSR). Retained as a crime scene consultant by jurisdictions in both the United States and Canada, Dan has qualified as an expert witness by criminal, civil, and military courts to provide expert testimony in Death Investigations, Crime Scene Reconstruction, and Bloodstain Pattern Analysis. Dan writes and teaches to law enforcement and investigators, and since 1998 has taught Criminal Investigations at the Washington State Criminal Justice Training Commission. www.ChristmanForensics.com
