## Drug Investigations “Investigating Beyond the Street Level Seller”

### 2 Days 16 Hours

The goal of this course is to familiarize the officer, investigator, and analyst with the knowledge to conduct drug investigations to go beyond the street level seller. The course focuses on proven concepts and techniques that effectively investigate and prosecute participants in the drug conspiracy. The course demonstrates how to effectively and efficiently conduct investigations that target the complete drug organization rather than just the street level seller.

### Course Objectives

- Understanding how to incorporate street level investigations into a drug conspiracy or CCE investigations.
- Understanding legal issues of using and managing informants.
- Utilize techniques to conduct a conspiracy and CCE investigation from start to finish.
- Case management templates that effectively show the conspiracy to a prosecutor/jury.
- Template for creating the prosecution summary.
