

AWR 144: Port and Vessel Security for Public Safety and Maritime Personnel

November 14, 2011

AWR 144: *Port and Vessel Security for Public Safety and Maritime Personnel* is a DHS-approved course developed to introduce rural and small agency first responders to the maritime security requirements of the high-risk, regulated facilities in their jurisdictions. In emergency situations, regulated facilities have federally-mandated security and reporting procedures that must be followed. Management of an incident will be more efficient when emergency responders have a good working knowledge of maritime security principles and procedures. Topics covered in this course include:

- Rural characteristics of the U.S. Maritime Transportation System
- Threats to the U.S. Maritime Transportation System
- Maritime regulations and environment safety issues
- Security levels
- Sensitive security information
- Transportation Worker Identity Credential (TWIC) response issues for local law enforcement

This course is **tuition-free**, and designed to give practical information to public safety officials in rural areas who might be called upon to respond to maritime incidents. The primary audience for includes personnel from:

- law enforcement
- fire service
- emergency medical services
- emergency management
- natural resources
- public works

* Please note all Non-U.S. citizens need to complete a DHS Foreign National Visitor Request Form by October 24, 2011 in order to attend this course.

Training sponsored and hosted by:

Aberdeen Police Department
