LAW ENFORCEMENT,
MILITARY & CIVILIAN

Diagnostic Firearms Instructor Workshop (4 Days)

Although this course was designed specifically for firearms instructors, especially those who are tasked with fixing shooters, the DFIW is guaranteed to increase any shooters understanding of the how and whys of shooting performance. Materials for this course are founded in real life application and pass on years of valuable information regarding self diagnosis, diagnosis of others and the remediation of shooters. Topics covered include: instructor/student attitudes, successful motor programming, remedial training drills, confidence building drills, target diagnosis, training tips, techniques and shooter remediation plans in both classroom and hands-on live fire instruction. Attendees will have a vastly greater knowledge and understanding for how to obtain speed, precision and combat accuracy from themselves and their students. You will no longer wonder why you or any other shooter is failing to perform after attending this training.

"If you attend one firearms course this year, make it this one!" Deputy Will Boehnlien, Geauga CO. S. O. Ohio
"National level training brought to your own back yard." Chief Don Burson, Seville PD, Ohio

Chris Cerino Training Group instructors are masters of the fundamentals. All CCTG training courses are presented by nationally known trainers who perform at the forefront of the training world. Instructors at CCTG have operated and trained at international levels, providing training to specialized law enforcement and military units who operate in high risk environments.

Email CCTG at: info@cerinotraininggroup.com

The Okanogan County Sheriff's Office is proud to host Chris Cerino of the Cerino Training Group for his Firearms Instructor Diagnostic Workshop On August 6th – 9th 2012.

While this course is listed as a Firearms Instructor course, it is open to advanced level shooters looking to improve their own skills as well as those they shoot with.

*** If you are not a current or former Firearms Instructor, contact me with your training history prior to registering for the course.

In addition to the above information, make sure you have the following-

- Eye & Ear protection (electronic hearing protection is REQUIRED)
- Durable range wear suitable for outdoor training
- Serviceable duty grade pistol
- Duty grade, known reliable pistol (minimum 9mm para caliber)
- Serviceable holster (holsters that require the trigger finger to deactivate the retention device such as the BLACKHAWK! SHERPA brand holster are NOT allowed unless you are in Law Enforcement and it is your duty holster)
- Pistol magazine pouches to carry a minimum of 2 spare magazines on you
- Minimum of 3 pistol magazines
- Ammo requirement is 1250 rounds minimum
- Note taking material
- Liquids
- Positive, winning attitude

It will be August in North Central WA, so plan for dry, hot weather on an outdoor range.

A refrigerator, microwave and cooler with ice are available on site for student use.

Reduced rates have been arranged at local lodging for students. Contact me for further details as well as for a map and specific driving instructions to the range.

To register for this course, contact the Chris Cerino at the above email address.
