Course Goal:

This hands-on program teaches and guides the student step-by-step through field armorer operations of the SIG 556 Rifle. Extra time is given to the student to become thoroughly familiar with the mechanical operation of this law-enforcement carbine. Active participation in disassembly and assembly procedures coupled with question and answer periods provides the type of learning environment favorable for the retention of the material. Written and practical exams are administered to test the working knowledge of each participant. Following successful program completion, certification / re-certification to perform these procedures is valid for a period of three (3) years.
