

## Is Your Family Prepared For a Critical Incident?

None of us in the law enforcement family want to think about the possibility of losing a loved one in a line of duty death (LODD), or suffering a catastrophic injury. Many of our officers and families are not prepared. That's why we want to provide tools to help others begin crucial conversations. The Lacey Police Department and WASTateC.O.P.S join together for the following workshop, where we'll discuss LODD, suicide, injury, and their effects on families and co-workers. We'll examine benefits, financial preparations and how families can support their officers on the job and at home. Plus much more!
