

Tracking Class: **TACTICAL TRACKING FOR LAW ENFORCEMENT**

Tactical Tracking is a 40 Hour, 5 Days course designed to instruct students on how to conduct operations safely as a tactical tracking team. This course is 100% camouflage at all times and students will learn how to track using visual tracking skills and apply them to many aspects of law enforcement team operations. Some of the information gathered through tracking is used for forensic analysis as well as intelligence gathering while conducting tracking operations.

- Tracking team formations and how to adjust the formations for different terrain.
- Common Booby trap recognition.
- Combat Tracking Techniques.
- Immediate action drills using non-lethal training ammunition (NLTA)
- Operations Planning and command & control during the track
- Tactical team development and training activities
- Tactical Team Patrol operations
- Point man techniques
- Interpreting top and ground sign when obvious footprints are not found.
- Lost track procedure and sign cutting techniques.
- How to recognize common deception tactics determining the age of sign/spoor
- Track pursuit drills
- Reading blood trails
- Making proper use of all senses for maximum awareness in back country
- Students will expect to use these techniques throughout the course. Including night operations.
- Lost communications protocol

BASIC ITEMS REQUIRED FOR THESE COURSE

- Clothing (Camouflage)
- Camel- Back water hydration
- MREs Or Trail mix Food
