

Tactical Handgun Instructor

Put your shooting skills and tactical skills together in this challenging three-day class! Lecture and range content will be tailored to the audience, so as to fulfill the individual requirements of the law enforcement patrol officer, S.W.A.T. officer, or military special operations operator.

At the end of this course the instructor will be able to more effectively present material to students and will be able to coach the individual shooter to a higher standard. Instructors will be able to identify errors not seen before and will be able to correct those errors quickly and effectively. Techniques will be explained in a depth not experienced before and all techniques will be linked into a coherent system of firearms usage. In addition to the topics below, lectures will include: handgun types and modifications, ballistics and ammunition selection as it pertains to the handgun, holster selection, and accessories.

Curriculum:

- Firearms safety as it pertains to self-defense
- The basics of firing, stance, grip, sight alignment, trigger press, speed reloading, tactical reloading, and stoppage drills
- Rapid multiple shots on single targets, rapid engagement of multiple targets; proper tactical response to single or multiple opponent situations
- Engagement of targets from the ready position, the draw, and the concealed draw
- Close range employment of the handgun; moving to the rear and laterally while drawing and shooting; use of cover; and pivots
- Low light handgun usage

The InSights curriculum is one of the best examples of integrated use-of-force training I have seen. Based on this training, InSights students have the distinction of being among the least likely to be in a fight and among the most likely to win any fight they do find themselves in!

Tom Givens, Gunwriter and trainer

Dates: September 11-13, 2012 \$675
