# Payroll Law 2012

*Protect your company from costly mistakes and legal blunders*

A One-Day Seminar

## What you don't know can hurt you

That's never more true than when handling payroll. The first step to complying with regulations is understanding them. That's why *Payroll Law 2012* begins with a crash course in payroll's legal basics. You'll find out what areas fall under state, federal and joint regulation, and learn how to avoid the often staggering penalties and fines of non-compliance.

## Learn to avoid common — and costly — mistakes

Handling payroll sounds like a simple proposition but every employee's paycheck presents a different challenge. Regulations regarding special benefits and other payments turn a simple proposition into a legal landmine. After this seminar, you'll know which forms to use when and, most importantly, how to keep your company out of hot water with the DOL and state agencies. It's their job to catch you in a mistake. Together, we'll make sure that doesn't happen.

## Enroll today in this intensive, one-day seminar on today's most challenging payroll issues, including:

- Strategies for streamlining payroll processing without compromising accuracy
- What's taxable; what's not?
- FLSA — understanding the law could save your company a bundle
- When state laws take precedence over federal law
- Recent regulation changes impacting your payroll
- Handling the sticky legalities of payment on termination
- The red flags auditors look for in your payroll procedures
- And much, much more. Don't miss out, enroll today!
