

11/15/12

**Crime Prevention Through Environmental Design:  
For Schools; January 30, 2013**

**"The proper design and effective use of the built environment can lead to a reduction in the incidence and fear of crime and an improvement in the quality of life." Timothy Crowe**

This 4 hour training will be presented in two segments. The first two hours will be exploring the general concepts and strategies of CPTED. The second two hour block will examine applying the principles to schools and conducting a school safety & security assessment based upon the principles of CPTED.

**In this training you will learn the principles of:**

Natural Surveillance  
Territorial Reinforcement  
Natural, Mechanical and Organized Access Control  
The 3 "D's" Design, Designation, Definition  
Form vs Function  
Ideas for conducting a site security assessment

**Audience:** School Security & Resource Officers, Maintenance and Operations personnel, Administrators, and other personnel responsible for safety & security for schools.
