

Washington Association of Technical Accident Investigators

Training Course **IPTM - Investigation of Motorcycle Crashes**

Instructor: Paul Olson

May 13 – 17, 2013

Bellevue City Hall

450 110 Ave SE Bellevue WA 98007

Cost: \$425 - if registration received by April 1st

Cost: \$500 - if registration received after April 1st

Course Description: (40 Hours)

This course is designed for experienced traffic crash investigators who have a good working knowledge of the techniques and applications of formulas taught in basic crash investigation courses and who wish to build upon that foundation with more advanced mathematical formulas used to analyze motorcycle crashes.

Various field tests will be conducted showing you a variety of motorcycle skids, accelerations and slide-to-stop drag factors. You will learn how to photograph skids and examine the subsequent effects that skids have on the tires and surfaces. Through these tests, you will gain valuable first-hand experience that can be beneficial in court proceedings.

You will be given a manual of applicable information to use as a motorcycle reference book.

Topics include:

- Analyzing and interpreting the motorcycle crash scene
- Determining acceleration and deceleration characteristics of the motorcycle
- Analyzing and interpreting modes of instability and handling characteristics in motorcycles
- Interpreting the operator factor
- Reviewing motorcycle tires, helmets and other equipment
- Using a practical application of formulas (projects)

REGISTRATION: Fill in and return this form along with a check (payable to WATAI)
