The nationally presented course every police administrator wants...  
...and every police officer, police supervisor, and police administrator needs!

# Force Response Civil Liability Prevention

This course counters the latest Plaintiff's litigation tactics by providing practical guidelines and checklists for the force response and its documentation by your officers and supervisors.

## **Why Your Officers, FTO's Supervisors, and Police Managers Need to Attend This Course:**

The requirements for using and reporting force have changed. Have you changed to meet the threat?

The threat by Plaintiff's attorneys is now coordinated, specialized, and growing.

The threat of **civil and criminal liability** to officers and on-scene supervisors has never been greater.

The courts are requiring increasingly more sophisticated testimony from officers and on-scene supervisors.

Identifying civil liability exposure is a key to documenting and proving your—and your officer's—proper conduct.

Are you protecting yourself by documenting your force responses adequately? Commonly missed documentation that hurts you in civil (and sometimes criminal) trials.

The public, the media, and the courts expect higher and higher professional conduct and expertise from police supervisors and managers than ever before.

## **Your Instructor: GEORGE T. WILLIAMS**

Director of Training of Cutting Edge Training, LLC. He is a nationally known Police Master Instructor and author. He extensively defends officers in civil and criminal litigation as an Expert Witness on police force response, deadly force, tactics, policy, and training. He has presented this important and vital training to thousands of officers, supervisors, and command officers in Washington and nationwide. Don't miss this opportunity to be trained by a master trainer, who will keep your interest, stimulate your enthusiasm for the job, and provide you with career saving information!

**Designed by the civil attorneys who defend officers...for officers.**

We asked them one simple question: "What do you want your defendant officers to know *before they get on the stand?*"

**This is the course they want you and your officers to have!**
