

# Cellebrite UFED Product Training

## UFED Logical/Physical Pro Certification

**Sept. 24-26, 2013** | Bellevue, WA

Utilizing next-generation physical extraction and analysis capabilities, Cellebrite's Universal Forensic Extraction Device (UFED) delivers valuable information from mobile devices – even if data has been deleted or hidden by the user. This course will help you master cellular technology with the UFED.

## Why train with Newberry Group?

Newberry Group's trainers have performed mobile and digital forensic examinations in a variety of contexts, including law enforcement, defense, intelligence and enterprise corporate security. With our mobile

forensic partnership with Cellebrite, we have developed custom courseware and conducted courses both nationally and internationally on the UFED Logical/Physical components. Our extensive history in IT and cyber security, along with our training expertise, allows us to build and deliver a high impact, hands-on course that translate directly into real world skills.
