Class Location:

Spokane Sheriff's Office Training Center
10319 E. Appleway Blvd.
Spokane Valley, WA 99206

Lodging for this Class:

Hotel accommodations for this class will be posted on our website as soon as they are finalized.

Target Audience:

This course is designed for all pattern evidence practitioners, especially friction ridge examiners regardless of their level of experience. More experienced examiners will learn an improved method of conveying their opinions from a more scientific perspective, while less experienced examiners will be able to develop a method of examination and testimony which will with-

stand the current and future challenges of our legal system as they develop. The student will not only better understand the scientific principles of their forensic discipline but will be able to articulate those principles while offering their opinion testimony as an expert witness.

Attendees Should Bring:

Note taking supplies are needed. Highlighters and/or colored marking pens are recommended for use in documenting features observed during comparisons. All images are enlarged, magnifiers are not necessary. Dress is business casual.
