

# SEXUAL DEVIANT KILLERS

Dr. Lawrence J Simon – Author

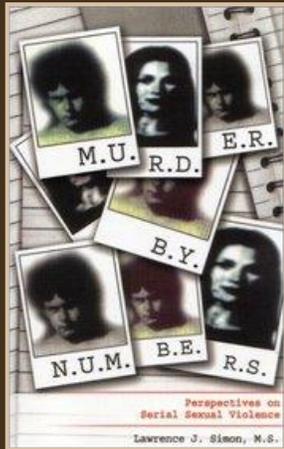

Hosting Agency- Spokane County Sheriff's Office

Date: November 21<sup>st</sup>, 2013

\$199.00

\$350.00

for 2

This workshop is relevant to all law enforcement personnel who are interested in the subject and is primarily designed for homicide and sex crimes detectives. This exclusive training offers extensive analysis into the minds of violent sexual predators and serial murderers who generally target women and children. Sexual deviant pathologies discussed at length will include criminal sexual sadism, necrophilia, bestiality, cannibalism, and a few of the rarest and unusually perverse sexual deviancies perpetrated on victims.

Dr. Simon is one of the nation's leading law enforcement trainers on the subject of aberrant sexual pathology. He is a doctor of psychology, certified sexologist and diplomat of the American Board of Sexology. He has worked in several maximum security prisons in the United States providing psychological services to violent sociopaths, murderers and rapists. He has conducted lengthy interviews and extensive research into the internal thought processes, psychosocial backgrounds and the why behind the crimes of extraordinarily violent men incarcerated in maximum security prisons and inmates housed on death row. He has offered his behavioral impressions and worked directly with law enforcement agencies on hundreds of cold case homicides and crimes involving a sexual and explicit nature.

## Expectations

### Please Dress in Professional Attire

Detectives are encouraged to bring in at least one challenging case for consultation applicable to any of the topic areas above.

### Class Format

Sexual homicide case studies and crime scene photos, interview samples of serial killers, videos of violent pornography and overall mindset of criminal sexual sadists and serial killers discussed.

The workshop is set up as meeting style

### Primary Objective

Obtain a more comprehensive understanding of the general mindset and psychosocial backgrounds of serial killers and criminal sexual sadists in an effort to identify and better prepare for interviews and case preparation.
