Crime Prevention through Environmental Design: For Schools December 2, 2013

"The proper design and effective use of the built environment can lead to a reduction in the incidence and fear of crime and an improvement in the quality of life." Timothy Crowe

This 4 hour training will be presented in two segments. The first portion hours will explore the general concepts and strategies of CPTED. The second block will examine applying the principles to schools and conducting a school safety & security assessment based upon the principles of CPTED.

In this training you will learn the principles of:

Natural Surveillance
Territorial Reinforcement
Natural, Mechanical and Organized Access Control
The 3 "D's" Design, Designation, Definition
Form vs. Function
Ideas for conducting a site security assessment

Audience: School Security & Resource Officers, Maintenance and Operations personnel, Administrators, and other personnel responsible for safety & security in schools.

Trainer Bio:

Randal Town M.Ed.
Washington State Criminal Justice Training Commission
