

“The CSI Effect”-

Maximizing the Potential of Forensic DNA

Register today for this FREE training

December 4, 2013 * Seattle, Washington

The National Center is pleased to announce a **free training opportunity**. We are offering a one-day training on forensic DNA called “The CSI Effect” - Maximizing the Potential of Forensic DNA on December 4, 2013, in Seattle Washington.

Hear from the nation’s leading experts in forensic DNA, including a cold case detective, a retired New York City Homicide investigator, two survivors/advocates, and scientific and public policy experts. We will discuss the CODIS database; arrestee DNA testing; best practices for working cold cases; using DNA in missing persons and trafficking cases; crime scene evidence collection and Touch DNA; and innovations in the criminal justice use of DNA such as familial searching and rapid DNA testing.
