### Course Description:

**Day 1 – 14OCT2014 8:30AM-5:00PM**

This presentation will focus on sovereign citizens and their rapidly increasing problematic contact with all forms of government on a local, state, and federal level. Basic awareness of this growing threat and how it will directly impact the daily duties and responsibilities of law enforcement and other government employees will be discussed at length. Attendees should expect a general “indoctrination” into the sovereign citizen movement to help further awareness, recognition and mitigation of this new, and unconventional, problem.

Sovereign citizens pose a direct threat to government because of their sometimes overwhelming use of “paper terrorism” tactics. Forms of paper terrorism discussed include lawsuits, liens, uniform commercial code financing statements, fraudulent property deeds, fraudulent power of attorney, affidavits and apostilles. General daily harassment of government employees through certified and/or registered mail will also be discussed, along with how to mitigate these issues.

Attendees will learn the fundamental principles of the sovereign citizen movement, including their ideological beliefs, pillars and doctrines. Identifying possible sovereign citizens through language identification and document recognition will be thoroughly covered. Common criminal tactics, focusing on fraud as it pertains to taxation and property, will be discussed along with numerous examples of fraudulent documents often used by these individuals to further their criminal goals.

**Day 2 – 15OCT2014 8:00AM-5:00PM Only 160 Spaces Available!**
