Overview:

S.P.E.A.R. SYSTEM Instructor Certification Training: Startle/Flinch Conversion Theory, Counter Ambush Policy Development, Close Quarter Tactics, Full SOP/ROE Trainer Development program assists DT Instructors in adding extreme close quarter tactics to their agency's Use Of Force model. Our most effective and popular program is back with newer drills and important updates, the program includes advanced video assistance, 4 & 8 hour PowerPoint presentations, Use of Force applications, expert witness components and much more. Email us for hosting or other course details.

About The S.P.E.A.R. System:

OBJECTIVE & CAPABILITY

The S.P.E.A.R. System is a modern close quarter combatives & personal defense program based on science, psychology and human bio- mechanics. It is not a martial art nor does it replace other martial systems. We have standardized and simplified close quarter combatives choices and improved potential effectiveness by basing the close quarter skills on hardwired reflexes and reactions to violence.

Because S.P.E.A.R. System tactics are built upon hard-wired reflexes, the system enhances the defenders ability to weather, deflect or intercept a sudden close quarter “ambush.”

You can read about the S.P.E.A.R. System in Men's Fitness [HERE](#)
