About the Seminar: The WZ Seminar on Tactical Field Interviewing is designed to teach and reinforce the sound fundamentals of the field interviewing process for the patrol officer, field investigator, detective, police officer, special agent, or other law enforcement professional. Course participants learn a broad range of cutting-edge methods and proprietary tools to conduct more effective interviews. The benefits are more actionable intelligence, quicker admissions and better statements.

The skill sets taught allow investigators to uncover terrorist plans directed at critical infrastructure so they may intervene to deter criminal activity. These interviewing techniques are also specifically designed to deal with money laundering and fraud schemes, which may be used in furtherance of the criminal or terrorist enterprise. Seminar participants will learn to apply interviewing techniques that most often will bring these cases to a successful conclusion.

Seminar Topics Include:

- Interview vs. Interrogation
- Legal Aspects of Tactical Field Interviews
- Counter-Terrorism Interdiction Questioning
- Interpretation of Physical & Verbal Behavior
- Developing and Handling Informants
- Cognitive Interviewing Techniques
- Enticement Questions
- Reducing Resistance
- Obtaining the Admission

The course is especially appropriate for those investigators tasked with the investigation of domestic or foreign terrorism and terrorist-related activities. Criminal activities traditionally investigated by law enforcement may have provided cover and funding for terrorist organization in the United States and abroad. Investigators conducting these inquiries will learn to apply interview and interrogation techniques, which most often will bring these cases to a successful conclusion.

Instruction includes a comprehensive overview of a variety of non-confrontational interview and interrogation techniques to overcome the resistance of a traditional criminal or a terrorist operative. Seminar participants will learn to assess verbal and non-verbal behavior, to offer rationalizations, handle denials, detect deception and evaluate truthfulness.
