

## Standardized Field Sobriety Testing (SFST) Basic Class

During this three day SFST Basic class, officers will receive instruction on how to conduct thorough impaired driving investigations, understand the scientifically tested methods to detect, screen, and process impaired drivers. This SFST Basic training course includes a live drinking lab workshop. This course was developed by NHTSA and IACP and can be utilized anywhere in the United States. Please bring: Note-taking material/computer, wrist watch with second hand or digital readout. Please dress appropriately for training: Dockers or similar and polo-type shirts or similar. No jeans or t-shirts.
