SPEAKERS / TOPICS:

K-9 Learning and Communication Instructed by Cameron Ford.

K-9 Learning and Communication discusses how canines learn and receive information and cover the learning systems of Classical and Operant conditioning . The class will also cover how to properly use rewards and how to use Bridges / Markers which allows the handler to better communicate and teaches your dog the task you want it to learn. The class will include practical hands on experiments where it will allow you to feel for yourself how to best communicate and relay desired information. In the end this will allow you to train better as well as problem solve common issues seen in K-9 work.

*Cameron Ford has been in K-9 for 20 years. First serving the U.S. Air Force as a Military Working Dog Handler and trainer.
