

NATIONAL CRIME PREVENTION COUNCIL

BASIC CRIME PREVENTION THROUGH ENVIRONMENTAL DESIGN TRAINING COURSE

HOSTED BY THE REDMOND POLICE DEPARTMENT IN REDMOND, WASHINGTON!

Crime Prevention Through Environmental Design (CPTED) is based on the principle that proper design and effective use of buildings and public spaces in neighborhoods can lead to a reduction in the fear and incidence of crime, and an improvement in the quality of life. CPTED's goal is to prevent crime through designing a physical environment that positively influences human behavior. It is based on four principles: natural access control, natural surveillance, territoriality, and maintenance. Participants will learn the basics of CPTED principles and how they work; apply successful applications and techniques of CPTED to specific crimes; consider CPTED principles in plans to secure key public places, schools, and facilities; and conduct a community safety assessment using CPTED principles.

COURSE OBJECTIVES

- CPTED theory, overview of history of crime and physical environment, CPTED principles and how they apply to problem solving, community planning, and conducting safety and security assessments
- CPTED applications to specific crimes and "hot spots" locations
- Specific practical techniques including street and security lighting, landscaping, barriers, traffic calming, and target hardening
- Role of maintenance, ordinances, and other local laws in strategies to prevent crime and improve quality of life
- How to link neighborhood volunteers to local crime prevention, community building, and homeland security initiatives
- How to consider CPTED principles in plans to secure key public places and facilities

TRAINING DATES

April 21-23, 2015

FEE

\$400 per person

Early bird registration \$375 if registered by 3/31!

TRAINING LOCATION

**Redmond Police Department
Public Safety Building
8701 160 Avenue NE
Redmond, WA 98052**

- Travel, lodging, and food costs are the responsibility of the participant.
- Please bring a laptop and digital camera to the training. You may find them useful.

BENEFITS OF CPTED

Law Enforcement Will Benefit From

- Sustainable links with planning, development, code enforcement, and other local agencies
- Clarification and action on neighborhood priorities related to crime and quality of life

Municipal Leadership Will See

- Improved perception of safety and livability in public areas, schools, and neighborhoods
- Enhanced consideration of public safety in planning, development, and redevelopment projects

Business Leaders/Owners Will Gain

- Safer locations that are more attractive to customers and employees
- Enhanced problem-solving partnerships with local government and community members
- Skills to recognized potential problems in the business districts before they become serious

Architects/Planners Will Gain

- CPTED is recognized as an acceptable component of LEED (Leadership in Energy and Environmental Design) or Green Building
- A holistic approach to the development and planning process
- Increased collaboration between city agencies, businesses, and communities to improve public safety
