Enrollment Deadline: September 5<sup>th</sup>

Register Early Seating is limited: Class Size

Minimum –20 Maximum –60

Cost Per Student: \$250.00

### **Program Purpose**

This course is designed for all public safety personnel, law enforcement professionals, attorneys and social service experts within the forensic arena. This program offers detailed analysis into the general mindset of dangerous sexual predators who perpetrate undue hideous and surreal attacks on unsuspecting citizens and other living organisms. This innovative course utilizes genuine case samples where the instructor served in various capacities as a consultant, utilized on task forces, including but not limited to bizarre sex crimes, cold case sexual assaults and high profile serial homicides. Dr. Simon is a highly respected and sought after presenter within the law enforcement community. His post-secondary educational background and credentials, hands-on investigative research and years of practice trudging through the dark minds of the most unusual, violent, and deranged individuals makes this course a must see. Dr. Simon emphasizes the psychology behind the crime while analyzing and interpreting true accounts and disturbing viewpoints of some of the most dangerous men behind bars, including inmates he's interviewed on death row. This program offers the student the opportunity to experience and traverse through the perverted mindset of these individuals, think and ruminate as they do. Dr. Simon fascinatingly probes the evolution and unsettling features of violent sexual deviant pathology providing forethought and credible warning signs that include some elusive topics as necrophilia, pedophilia, cannibalism, criminal sexual sadism, war rape, voyeurism, bestiality, and serial lust murder. The instructor skillfully uses imagery with anecdotal accounts of the historical past with our present, while utilizing the internet, videos and case samples, including crime scene photos that depict diverse features of deviant behavior. Lastly, psychosocial histories and backgrounds of perpetrators will be presented and analyzed. The goal is to achieve a more comprehensive understanding of the overall mindset, fantasy facilitators, outlook, behaviors and etiology of sex offenders with the goal of identifying warning signs, interviewing and understanding suspects, increasing effectiveness in search warrants and greater case preparation from case inception to closure.

**No cancellations after September 5<sup>th</sup>, 2015 which is the Enrollment Deadline**  
**Committed to Excellence in Law Enforcement Training**
