

School Risk Solutions LLC Presents:

Hosted by Squaxin Island PD

**VIOLENT
INTRUDER
PREPARATION
INTERVENTION
RESPONSE**

V.I.P.I.R.-2.0

October 19th, 2015 from 0800-1600.

“Cabelas”, at 1600 Gateway Blvd NE. Lacey, WA
Register at www.bluelineincs.com or contact
David Miller at (360) 259-5028.

Cost: \$129/Person

- What is your facility’s procedure to respond to a Violent Intruder attack?
- Do you have a facility AND a personal plan for survival?
- Have you done all that you can to keep your facility safe and decrease your liability?
- Are you going to follow standard protocol?
- Did you know that is what the killer expects you to do?

“Even when law enforcement was present or able to respond within minutes, civilians often had to make life and death decisions, and, therefore, should be engaged in training and discussions on decisions they may face.” 2014 FBI ACTIVE SHOOTER REPORT

While many companies only teach what to do when a Violent Intruder is at your door, our training system is unique from others on the market. It is designed to provide your organization with a comprehensive plan to prepare your building and your people to not only survive, but to WIN during a Violent Intruder Event. During our V.I.P.I.R.-2.0 training you will learn:

- Crime Prevention Through Environmental Design (CPTED) strategies which will aid you in preparing the physical environment to potentially deter and interrupt an attacker.
- About the mentality of a Violent Intruder and discuss actual incidents to better understand what you are preparing to defend against.
- V.I.P.I.R.-1.0 principles which are used nationally in K-12 schools, colleges, and universities, as well as private facilities. V.I.P.I.R.-1.0 is designed to encourage a new way of thinking which stresses a pro-active response to deal with a Violent Intruder Event. This training will empower you to effectively communicate, appropriately respond to, and ultimately survive a Violent Intruder Event for yourself and those in your care. What you will learn will allow you to minimize the negative impact on the facility and people, and preserve human life.
- What you can expect in the police response to a Violent Intruder Event and what you can do support the evacuation and life-saving steps.
- How to identify strategic areas and functions that must be established to provide ongoing support during the aftermath of a Violent Intruder Event.

This is an (8) hour class and is recommended for administrators, managers, SRO's, law enforcement, facility security staff, school board members, architects or anyone else involved in the safety and security of a school or any other facility.

“This class has definitely changed my mindset, how I look at my surroundings and thinking what would I do in a shooting situation in different areas in our building. Definitely empowerment and not a victim.” Dawn C. - Elementary School Counselor - WA State

“This class was amazing and as a mom and a teacher I want all staff to know and experience this training.” Molly M.. -Teacher -WA State

“This was the most useful presentation on these security issues that I have seen in 15 years. Finally something that makes sense and is doable.”

Nate Henyan served honorably for 4 years in the United States Marine Corps where he was assigned to the Security Force Battalion and as a machine gun section leader in 2nd Battalion., 7th Marine Regiment, 1st Marine Division. He is a commissioned police officer with over 15 years of experience in one of the largest police departments in Eastern Washington. He has served the citizens of his community as a patrol officer, detective and in his current assignment as a School Resource Officer at an alternative high school where he works with challenged youth. He has attended numerous training courses to include: FBI LEEDA leadership training, advanced Crime Prevention Through Environmental Design (CPTED), Crime Scene Investigation, Homicide Investigation, and Active Shooter Response Training. Nate is an ACPI certified threat assessment specialist and is a member of Youth Homicide Expert Phil Chalmers “Sudden Impact” Speaking Team. He helped implement V.I.P.I.R. training which has since been adopted as the official active shooter response training for several school districts totaling over 20,000 students. Nate has trained over 1000 teachers, school employees, and administrators in V.I.P.I.R. principles and has advised in general safety improvements for both public and private facilities.
