Basic SWAT

This class will focus on the basic understanding of SWAT operations including: SWAT history, liability issues, physical fitness/wellness, SWAT equipment/weapons individual and team movement, intelligence gathering, mission planning, barricaded persons, high risk warrants, less lethal/chemical/NFDD issues and a large focus on team building. At the completion of training, students will be able to function as part of an entry or containment team. Students are required to bring all of their tactical gear for hands-on training evolutions. This is not a course in the classroom; you will plan and execute numerous missions during the five day course at different sites.
