Tactical Duty Knife: Use and Defense for Officers

You carry at least one knife. Most officers do. For a lot of reasons.

Like most, you likely carry it for your last-ditch defense. *Have you really thought about:*

- ▶ How you are actually going to be able to employ the knife effectively when you're hurt, extremely fatigued, losing the fight (and probably your handgun), and the knife is your only option of survival?
- ▶ Avoiding the negative consequences of "going primitive on the suspect (including possible punitive civil liability awards and/or a prison sentence) using your knife to save your life."

This comprehensive course professionally and responsibly teaches the effective, **DEFENSIBLE** emergency police use of *and* defense against the knife...

...**WITHOUT** resorting to *military* knife attacks—**NO** maximum infliction of damage!

NO irresponsible "knife on knife" scenarios—just cops problem-solving with objectively reasonable force to survive, during as well as *after, the incident.*

This course includes:

- ▶ The Constitutional Limits to the Police Deadly Force Response
- ▶ Articulation and Reporting of the Deadly Force Response
- ▶ Safe Everyday Knife Utility Employment
- ▶ The Duty Knife as an Emergency Rescue Tool
- ▶ Effective Combatives Problem-Solving®
- ▶ Police Duty Knife Skills—Employment and Retention
- ▶ Real-World Defense Against the Bladed Weapon
- ▶ Realistic and Justifiable Police Tactical Duty Knife Employment
- ▶ **Model "Duty Knife" Policy included in the workbook.**

April 12, 2016

0800-1700 hrs.
