Course Description:

SPEAR SYSTEM™ Instructor Certification Training: This Trainer Development Program allows agency instructors to introduce a Full SOP/ROE into the agency, Use of Force model covering development of pre-assault awareness, the Startle/Flinch Conversion Theory, Counter Ambush Policy Development, Close Quarter Tactics and scenario/drill development. The updated program, SPEAR 4.0, contains new drills and important updates reflecting current events, and provides the graduate trainers with advanced video assistance, 4 & 8 hour PowerPoint presentations and lesson plans, expert witness components and more.

OBJECTIVE & CAPABILITY: The SPEAR SYSTEM™ is a standardized and simplified close quarter combative & personal defense program based on science, psychology and human bio- mechanics. This modern system is based on hard-wired reflexes, and enhances the officer's ability to detect, deflect, avoid or defend a sudden close quarter ambush. This system is not a martial art nor does it replace other defensive training systems. Our system is designed to provide a bridge between the sudden onset of an attack and the skills a defender already possesses, so the design will enhance any already existing program.
