

Patrol Tracking Course

Professional Tracking Services

The Professional Tracking Services is a Reno, NV based organization dedicated to the art of tracking. The primary goal of our organization is to provide high- quality, low- cost instruction to military, law enforcement, security units, and search and rescue groups for the purposes of locating wanted or missing subjects or interpreting crime scenes.

Anything that moves will leave some type of sign that indicates its journey across terrain. Animals, people and machines all leave signs. A trained and highly skilled tracker can detect and follow that sign while the untrained often see nothing at all. If it moves over the ground, it must leave sign and a tracker can identify and follow that sign.

For Military and Law Enforcement

Patrol Tracking Course

Cost: \$250.00

Training for LEA/Corrections, SWAT/SRT and Military/DOD personnel to track fugitives.

This is a 40 hour Tracking course: 4 hours class room and 36 hours field work.

Graduates will receive a certification by Professional Tracking Services

Patrol Tracking is a course designed to instruct students how to visually track fleeing subjects in a Law Enforcement / Patrol context.
