

Use of Force: Transformative Practices for Trainers and Supervisors

Tom Ovens, Police Training Solutions

Use of force is the biggest exposure law enforcement professionals face in today's world. Take a pro-active approach; arm yourself with the knowledge and tools to be the tip of the spear on force training and review. Expose yourself to police training solutions and be in front of the coming changes to law enforcement. The current situation of where the community's view of use of force is diverging from the police officers view of use of force is unacceptable.

It is inherent that police trainers and supervisors understand the current standards (practices) for using force, teaching force, documenting force and critically analyzing force incidents. You as a supervisor or trainer will be able to create an environment where your officers can still safely do their jobs and use forces as necessary to protect themselves, the community and complete their duties.

Course Highlights

- Current Use of Force Standards
- Force Reporting
- Recognition Primed Decision Making
- Critical Analysis of Force
- Police Legitimacy and Use of Force
- Modernizing Police Training
