

Advanced Forensic Statement Analysis

~ Taking your investigation to the next level ~

Forensic Statement Analysis is a tool that is highly effective in the detection of deception hidden in a person's written or spoken statement.

Advanced Forensic Statement Analysis takes your investigation to the next level!

It's all about the words.... More than just the nouns, verbs, and pronouns our writer uses; it is about critically examining WORDS and SENTENCES and does it READ correctly? Is it the Shortest and most Succinct way to say what needs to be said? Does it make SENSE? We will critically analyze and discuss some famous cases, along with current affairs in the news, and produce an investigative report of our findings.

Attendees will discover techniques of critically examining the word choice, structure, and content of a person's statement to determine: Truth or Deception?

Objectives: The student will be able to:

- ❖ Critically conduct an analysis of complex written and/or transcribed statements;
- ❖ Interpret the results of the analysis;
- ❖ Produce investigative questions, and;
- ❖ Produce a written report describing their findings and conclusions.

Prerequisite: Must have attended our 1-day Forensic Statement Analysis course.

Participants remark that our courses are the "best they've ever attended", and are "well prepared, presented, and structured."
