DE-ESCALATION AND SMARTER POLICING

Who should attend: Sworn police officers from the rank of Chief of Police/Sheriff to police officers and deputies. **This course is taught by active/recently retired chiefs of police.**

Nothing is as important to government services as the relationship between law enforcement and the public that is served. Recent inflammatory actions and news stories have had a severe impact and the perception of law enforcement. Agencies and individual employees must understand their role and that every action and statement that is made reflects on the profession as a whole. This training will focus not only on individual employee attitudes and beliefs, but also organizational concepts that either enhances trust or perpetuates a lack of trust with the communities that are served.

Topics Include:

- The concept and foundations of Blue Courage as they apply to law enforcement authority;
- Service, justice, legitimacy and fundamental fairness as they apply to the Nobility of Policing;
- Resilience and apply techniques designed to enhance ability to function in peak capacity;
- Respect in police work;
- Civil and Human Rights
- De-Escalation Techniques
- Policing using influence and control
- The concepts of Procedural Justice
- Cultural Competency
