

# FORENSIC TRAINING CLASS

Hosted by the Washington State Patrol Crime Laboratory, Marysville and Snohomish County SO

## Instructor Information

### Ms. JoAnne Marzowski, Ph.D

She is a Microanalyst (10 years) and a Crime Scene Responder (6 years) in the Marysville Crime laboratory. Expertise includes trace evidence recovery, hair, tape, paint, and polymer analysis, footwear and tire impressions, fracture match, clothing examination, damage assessment, bloodstain pattern interpretation, trajectories, and crime scene reconstruction. She has a BS in Mathematics and Chemistry from Northern Illinois University; a MS in Inorganic Chemistry from NIU; and a PhD in Biochemistry from Washington State University.

### Mr. Brian Smelser

Graduated from Eastern Washington University in 1995 with a B.S. in Biology and a B.A.E. in Biology. He has been a Forensic Scientist for 14 years with experience doing casework in clothing examinations (body fluids, damage, trace), body fluid enzyme typing, DNA analysis, crime scene processing, blood stain pattern interpretation, trajectories, crime scene reconstruction, firearms, tool marks, and TASERs (ECD).

### Mr. Greg Frank

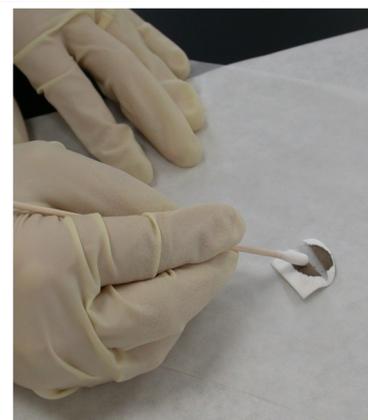

A forensic scientist for 21 years specializing in the detection and DNA typing of body fluids, working in the Marysville Crime Lab. He received his B.S. in Biology from Eastern Washington University in 1985.
