

Railroad Crossing Training

March 10, 2011

11:30am – 3:30pm

Railroad Training for Law Enforcement Officers “Grade Crossing Collision Investigation Course”

Program Goal:

The goal of this program is to provide unique training and information to law enforcement officers about the challenges associated with railroad operations and grade crossing collision investigations. Special emphasis is given toward officer safety issues for those who may encounter trains or enter railroad train yards in the performance of their assigned duties.

Course Description: (Standard - Four Hour classroom Course)

- Essential safety and operational information for law enforcement officers working around trains or railroad facilities, including “How to Stop a Train in an Emergency”.
- Familiarization with various types of railroad equipment.
- Basic information about hazardous materials shipped by rail.
- Information necessary to investigate a grade crossing collision.
- Knowledge about regulatory signs and traffic control devices at railroad crossings.
- State & Federal motor vehicle codes and case law pertaining to grade crossing collisions.
- Trespasser-related incidents on railroad property
- Basic tactical concerns for officers operating near trains, rail cars or rail facilities.

**LOCATION: Mount Vernon Police Department,
1805 Continental Place 360-336-6271**

TO REGISTER: Call Kathy Cherry at 360-336-6293

Officer Survival Down 'n' Dirty

This course does in 8-hours what others courses cannot in multiple days:

- It redefines how your officers are trained in on-duty and off-duty safety practices.
- It assists in recognizing pre-incident threat indicators necessary to preventing assault.
- It provides the second-half of officer safety needed to survive the aftermath of a force response.

Fast paced, extremely relevant, it is divided into three parts:

Officer Safety Down 'n' Dirty—Pre-Event.

- Principle-based approach to employing Safe Tactical Doctrine.
- Avoids commonly trained “boogey-man” theories (“If you aren’t constantly aware, *they’re gonna getcha!*”).
- “Habituating” safe tactical doctrine and practices.

Officer Safety Down 'n' Dirty—During the Event.

- When immersed in violence, how to increase your ability to manage it reasonably...and prevail.

Officer Safety Down 'n' Dirty—Post-Event.

- Surviving the “after-math” of a force response is the second-half of officer survival.
- More easily navigate the administrative, criminal, and civil minefields that are increasingly present after the suspect forces you to physically respond.

Your instructor: George T. Williams. .Director of Training for **CUTTING EDGE TRAINING, L.L.C.** In Bellingham, Washington. Certified Police Master Trainer. Having trained almost 25,000 officers nationwide and internationally in all facets of officer safety and force response, this course is extremely relevant to your safely conducting business in the increasingly dangerous world you face.

The nationally presented course every police administrator wants...
...and every police officer, police supervisor, and police administrator needs!

Reporting & Documentation of the Police Force Response

This course counters the latest Plaintiff's litigation tactics by providing practical guidelines and checklists for the police force response and its documentation by your officers and supervisors.

Why Your Officers, FTO's Supervisors, and Police Managers Need to Attend This Course:

- ▶ The requirements for using and reporting force have changed. Have you changed to meet the threat?
- ▶ The threat by Plaintiff's attorneys is now coordinated, specialized, and growing.
- ▶ The threat of **civil and criminal liability** to officers and on-scene supervisors has never been greater.
- ▶ The courts are requiring increasingly more sophisticated testimony from officers and on-scene supervisors.
- ▶ Identifying civil liability exposure is a key to documenting and proving your—and your officer's—proper conduct.
- ▶ Are you protecting yourself by documenting your force responses adequately? We cover commonly missed documentation that hurts you in civil (and sometimes criminal) trials.
- ▶ The public, the media, and the courts expect higher and higher professional conduct and expertise from police supervisors and managers than ever before.

Your Instructor: GEORGE T. WILLIAMS

Director of Training of Cutting Edge Training, LLC. He is a nationally known Police Master Instructor and author. He extensively defends officers in civil and criminal litigation as an Expert Witness on police force response, deadly force, tactics, policy, and training. He has presented this important and vital training to thousands of officers, supervisors, and command officers in Washington and nationwide. Don't miss this opportunity to be trained by a master trainer, who will keep your interest, stimulate your enthusiasm for the job, and provide you with career saving information!

Designed by the civil attorneys who defend officers...for officers.

We asked them one simple question: "What do you want your defendant officers to know *before they get on the stand?*"

This is the course they want you and your officers to have!
