DE-ESCALATION AND SMARTER POLICING: WINNING STRATEGIES FOR LAW ENFORCEMENT

Who should attend: Sworn police officers from the rank of Chief of Police/Sheriff to police officers and deputies. This course is taught by active/recently retired chiefs of police.

Nothing is as important to government services as the relationship between law enforcement and the public that is served. Recent inflammatory actions and news stories have had a severe impact on the perception of law enforcement. Agencies and individual employees must understand their role and that every action and statement that is made reflects on the profession as a whole. This training will focus not only on individual employee attitudes and beliefs, but also organizational concepts that either enhances trust or perpetuates a lack of trust with the communities that are served.

Topics Include:

- The concept and foundations of Blue Courage as they apply to law enforcement authority;
- Service, justice, legitimacy and fundamental fairness as they apply to the Nobility of Policing;
- Resilience and apply techniques designed to enhance ability to function in peak capacity;
- Respect in police work;
- Civil and Human Rights
- De-Escalation Techniques
- Policing using influence and control
- The concepts of Procedural Justice
- Cultural Competency
