The Washington State Patrol will be hosting Basic Vehicle Identification Number (VIN) Training from August 26–29, 2019.

This training will provide a complete understanding of how to identify a vehicle using all of the unique identifiers applied during manufacturing. This training class, which is a total of 24 hours, will discuss abandoned vehicles, obliterated identifiers, chemical number restoration, and basic and advanced identification techniques. This training will also include hands on instruction in vehicle identification.

Where, When, Time?
Location: 211 West 6th Ave., Kennewick WA 99336
